Engineering today is a global profession. Engineers are increasingly being called upon to work with other engineers from across the world, or they may even find themselves living abroad on an overseas assignment. Going abroad can be an amazing opportunity for students. The chance to supplement your studies with international experience is within your reach as an engineering student and we are eager to help you take advantage of the many options available to you while helping you to meet the academic requirements of your program.

Where SEAS Students Have Studied
- CIEE Madrid: Engineering and Society
- Hong Kong University of Science and Technology
- University of Bristol
- CIEE South Africa: University of Cape Town
- University of Edinburgh

Where Chemical Engineering Majors Have Been
- University of Edinburgh
- Hong Kong University of Science and Technology
- University College London
- Imperial College London
- Queen Mary University of London

What Courses They’ve Had Approved
- Biochemistry I
- General Physiology
- Molecular Phenomena
- Biochemical Engineering
- Ordinary Differential Equations
- Calc IV
- Technical and Non-Technical Electives

Please Feel Free to Use These as Guidelines but Note That Previous Approval Does Not Under Any Circumstance Guarantee Future Approval
