Engineering today is a global profession. Engineers are increasingly being called upon to work with other engineers from across the world, or they may even find themselves living abroad on an overseas assignment. Going abroad can be an amazing opportunity for students. The chance to supplement your studies with international experience is within your reach as an engineering student and we are eager to help you take advantage of the many options available to you while helping you to meet the academic requirements of your program.

### Where SEAS Students Have Studied
- CIEE Madrid: Engineering and Society
- Hong Kong University of Science and Technology
- University of Bristol
- CIEE Africa: University of Cape Town
- University of Edinburgh

### Where Mechanical Engineering Majors Have Been
- IFSA Butler in Australia: University of Melbourne
- Queen Mary, University of London

### What Courses They’ve Had Approved
- Mechanics I
- Mechanics of Solids
- Mechanical Engineering Lab I
- Intro to Mechanics of Fluids
- Thermodynamics
- Technical and Non-Technical Electives
